Introduction

Software engineering student at the Universidad Politecnica de Durango, I consider myself a responsible and orderly person ✨.

My goal is to improve myself in all aspects of my life, giving the best of me every day, both as a work and personal aspect 🙌.

I consider myself a developer with experience as an individual contributor. I have touched on services and databases, my specialty is JavaScript development, both on the web and on the server. Lately, I have enhanced my skills with free courses as well as studying the theoretical part of web development 😊.

I would like to continue implementing my web development skills in a Front-end Developer position 🙌.

My skills

Adaptability to change

Listening ability

Strategic vision

My best practices

As a good developer, I am a lover of cleanliness and simplicity.

I find it important to write well-documented code, either because it is descriptive or because it explained what I was looking for in relation to the functionality I was looking to implement. I appreciate working with pair programming. Of course, I continue to read and learn through books and events focused on good practice 😊.

Technologies and tools

I MASTER

JavaScript / AngularJS / C# / HTML / Gamemaker / SQL / CSS / PHP / JAVA / Python

PROFESSIONAL EXPERIENCE/CAREER

Advante Digital

— Front-End Dev and some task like Back-end Dev

Jan 2023 — Apr 2023 (4 months)

I have experience working in an internship at the company Advante Digital, doing the role of Front-end developer but I also did tasks as a Back-end developer

In the company I performed the 2 roles to fulfill the tasks assigned by the company.

In the company I was using the tools of AngularJS, CakePHP and Twilio, my job was to implement the UI/UX design as a Front-End developer and add notifications as a Back-end developer.

TECHNOLOGIES AND TOOLS

JavaScript / AngularJS / CakePHP

EDUCATION/DEGREES

Degrees

Universidad Politécnica de Durango

— University

Jan 2021 — TODAY (2 yrs. and 4 months)

BIS Software Engineering Studying the 8th Semester of the Carrer.

C.B.T.F. No. 4

— Preparatory

Jan 2017 — Dec 2020 (4 yrs.)

Busines Administration and Accounting

Certificates

Data Base Programming with SQL

Issued by: Oracle Academy

Oct 2022 — TODAY (7 months)

Data Base Desing

Issued by: Oracle Academy
Oct 2022 — TODAY (7 months)
